SUBJECT : Soviet Violations of Safe Conduct Pledges

1. In response to your request of 19 June, we are forwarding the attached paper on Soviet violations of safe conduct pledges.

2. Examination of pertinent literature, mostly by defectors and escapees, revealed 10 individual cases, and also those of the Polish underground leaders, paralleling the Nagy betrayal in which a pledge of safety was explicitly given. Only one classified reference was used (that regarding the Clementis execution), and we believe there would be no difficulty in declassifying the pertinent portions of that reference.
